The League especially wants all to understand any contribution is helpful for the scholarship of players that need the financial assistance. If you can even give an additional \$5 please do so. Know that any donation including registration donation is tax deductible. Please consider helping a player enjoy this great program where they might not be able to do so otherwise. Most importantly you're helping one of our future leaders for our community.

Mid Valley Little League offers a "need based" scholarship program to the players based on an application, and a personal interview to identify the level of scholarship required. To accomplish this program we must have the financial support to meet this need. This is where the sponsorship program takes legs.

The program requires safe field operations; the League needs to have equipment for safe and developmental play. Additionally there are administrative costs to operate an informed, functional program. The core values of Mid Valley Little League are that a player can develop skills of Character, Courage, and Loyalty through the baseball and softball programs. We are committed to developing training, and processes to enable a volunteer to offer time to improve youngsters' lives without having to sacrifice theirs through frustration and lack of knowledge, yet most of all offer an experience that will provide a lifetime of memories.

Another way to help is to donate used ball equipment. Including but not limited to gloves, cleats, pants, bats, duffle bags, and or light jackets.

**Note donations made, that don't reach one of the four levels listed, are automatically added to the scholarship program*

***Deadline for sponsors placement on team uniform is March 1st. Email President@midvalleylittleleague.org for details.*

Mid Valley Little League

Mid Valley Little League has unique ways to help sponsor this season. The leadership team wants to extend their heartfelt gratitude for your consideration of sponsorship support. Your support will help us provide a positive baseball and softball experience for our youth this year.

We are committed to the development of our communities youth while developing our coaching staff with new and continued training, therefore strengthening both our baseball and softball programs. We teach the values of Character, Courage and Loyalty within our youth program using the experience with baseball and softball as the vehicle to develop young and upcoming leaders for our community.

As a non-profit 501(C)3, and an all-volunteer non-compensated organization, we face the significant and ongoing challenge of obtaining financial support from sponsors, who play such a key role in making baseball and softball a reality for the youth of our community. Every sponsorship dollar contributed goes directly to supporting our League operations.

Please consider giving even a little to help us provide for the children that can't afford to join and acquire the needed supplies to play.
